On the trail: (for this segment, the trail description will be northbound, follow in reverse for southbound.)

This very popular segment has great “WOW” factor as you follow Lake Superior with views from both lake level and from above.

From the parking area at Wetmore Landing, head towards the lake and pick up the trail at (46.615061,-87.465084). Although overall the trail is heading west, this segment is mostly northbound as it hugs the Lake Superior shoreline with spectacular views of small coves, and rocky shoreline. You will encounter both stairs and a bridge along the way. The segment ends as you reach the promontory at Little Presque Isle, an unusual spot where waves collide from opposing directions (46.634721,-87.464521).
