

Segment 6 – End of Segan Rd Walk to Mangum Rd

(Formerly a portion of Segment 5) Updated April 2024 [Google Map of Segment 6](#) The Google Map is only for an overview of the trail. **Use Avenza Maps for actually locating and following the trail.**

Trail Adopter(s): Joe and Alison Amundsen, 906-249-1017, jaausa@charter.net

Segment length: About 3 miles, east to west (on this segment actually south to north) 66 ft of ascent, 218 ft of descent

Link to [Avenza Maps Online](#) : Use Map # 47 in the Avenza App. Make sure you have the current updates for Avenza. Always refer to the updated Avenza Maps for the most current NCT mile markers.

Please contact the Trail Crew Leader (Brad Slagle 906 236-2776) with reports of trail conditions, including blowdowns, washouts or inadequate blazing, or if you have questions on driving directions to the start point.

Many of the backroads have multiple names depending on which map you are using. When known, multiple names for the same road have been indicated in italics within brackets.

On the trail: (all trail descriptions will be westbound, follow in reverse for eastbound- on this segment, the route is actually northbound)

The segment begins at (46.430572,-87.107071). Follow the blazes along a two track and through the woods. The north half of this segment follows along a beautiful creek. The final 2.3 miles covers rocky terrain and eventually comes out on [*Mangum Rd./CR BAE*] at (46.463854,-87.120496)

Driving Directions:

Eastern (southern)Trailhead

The roads to reach the eastern trailhead are very rough, with deep waterholes and are often impassable and should not be attempted with anything other than a high clearance 4WD vehicle. It is recommended that this segment be combined with Segments 4 and 5. Contact Brad Slagle (above) with any questions.

Western (northern)Trailhead

From the corner of US 41/M-28 in Harvey, head east on M-28 for 11.7 miles. Turn right/south on Sand River Rd for .3 miles. Turn right on Sand Lake Rd for .3 miles. Turn left on [*Sand River Rd/CR BAA*] until it ends, about 1.7 miles. Turn right on [*Mangum Rd/CR BAE*] and park where there are signs indicating the NCT trail crossing. For those who prefer to follow a Google Map, here is the [Driving map from M28/Sand River Rd to Mangum Rd](#)

Camping:

The northern portion of this segment is mostly commercial forest and State of MI land where dispersed camping is available.

Water Access:

Water is available from the creek that parallels the north half of the trail.

Seasonal Access Information:

From late spring through early winter, the eastern trailhead requires a high clearance 4WD and careful driving. This trailhead is not reachable via vehicle in the wintertime. The western trailhead on [*Mangum Rd/CR BAE*] should be reachable year-round although may be best for an AWD in the wintertime.
