

Segment 7 – Mangum Rd to Railroad Grade

(Formerly Segment 6), Updated March 2026. [Google Map of Segment 7](#) The Google Map is only for an overview of the trail. **Use Avenza Maps for actually locating and following the trail.**

Trail adopter(s): Southern portion: Mike Kreft, 231-932-1512

Western portion: Eric Rehorst, 906-399-0269, eaglenorth2@yahoo.com

Segment length: About 4.6 miles, east to west 173 feet of ascent, 263 feet of descent

Link to [Avenza Maps Online](#) : Use Maps # 46 & 47 in the Avenza app. Make sure you have the current updates for Avenza. Always refer to the updated Avenza Maps for the most current NCT mile markers.

Please contact the Trail Crew Leader (Brad Slagle 906 236-2776) with reports of trail conditions, including blowdowns, washouts or inadequate blazing, or if you have questions on driving directions to the start point.

Many of the backroads have multiple names depending on which map you are using. When known, multiple names for the same road have been indicated in italics within brackets.

On the trail: (all trail descriptions will be westbound, follow in reverse for eastbound)

This segment takes you through the woods, then a dirt road walk, more woods, plus a beautiful new 500-foot boardwalk, then past the Jeske Wildlife Flooding and on two-tracks and a railroad grade. Take a side trip to [Lakenenland](#) (it's free!) to explore a unique metal sculpture park.

From [*Mangum Rd/CRBAE*] (46.463854,-87.120496), follow the blue blazes north into the woods. After about .5 miles you will head north on Sand River Rd for almost .7 miles. Watch carefully for the blazes that take you back into the woods from the road walk (in both directions). You may encounter wet trail year-round, but the worst has been alleviated with a boardwalk. Next up is the Jeske Flooding. You then head west and cross the Sand River, following the unimproved road to (46.490454,-87.173804).

Driving Directions:

Eastern Trailhead

From the corner of US 41/M-28 in Harvey, head east on M-28 for 11.7 miles. Turn right/south on Sand River Rd for .3 miles. Turn right on Sand Lake Rd for .3 miles. Turn left on [*Sand River Rd/CR BAA*] until it ends, about 1.7 miles. Turn right on [*Mangum Rd/CR BAE*] and park where there are signs indicating the NCT trail crossing. For those who prefer to follow a Google Map, here is the [Driving map from M28/Sand River Rd to Mangum Rd](#)

Western Trailhead

The best parking is at Lakenenland, about 1 mile east of the western trailhead. From the corner of US 41/M-28 in Harvey, head east on M-28 for about 9.5 miles. Lakenenland is located on the right. Feel free to park here and access the NCT from the back of the park through a trail Tom Lakenen built.

Camping:

From [*Mangum Rd/CR BAE*] to the Jeske Wildlife Flooding is state land so dispersed camping is available, but much of this section is too wet to be suitable. Once past the Jeske Wildlife Flooding, you will be near private property, so do not camp. Tom Lakenen has built a very nice hiking shelter near Lakenenland at (46.489320,-87.151588).

Water Access:

Water is accessible at the Sand River.

Seasonal Access Information:

The eastern trailhead on [*Mangum Rd/CR BAE*] should be reachable year-round although may be best for an AWD in the wintertime. Lakenenland is accessible via vehicle year-round.
